EXPERIENCE

SpryteLabs — USA (Remote)
Software Engineer Intern — *June 2022 - Present*

- Developed user-to-user connection/chat package that enables real-time connections and chats amongst SpryteLabs' users. This project can be added and re-used as a dependency on new and existing platforms.
- Collaborated with the technology team to implement some features such as invitations, rating, linking clients to existing companies, etc on the company's website.
- Improved the user interface of the SpryteLabs platforms.
- Fixed bugs and eliminated memory leaks.

Lendha — Lagos, Nigeria
Software Engineer — *August 2021 - January 2022*

- Integrated real-time message notification features for both users and admins which improved admins' and customers' user experience.
- Built some reusable components which make subsequent integrations easier and faster.
- Worked alongside UI/UX designers for web design features; turned Figma prototypes and designs into responsive web pages.
- Fixed bugs, eliminated memory leaks and race conditions and implemented several other features.

Microverse — USA (Remote)
Student Mentor (Volunteer) — *May 2020 - Present*

- Assisted junior developers weekly to ensure their mastery of web development.
- Mentored junior developers, providing technical support through code reviews.
- Had one-on-one virtual weekly meetings with my mentees and provided them with resources and tips they need to progress in the program as well as answered all questions they might have.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

Self-Employed — Lagos, Nigeria
Freelance Software Developer — *August 2020 - August 2021*

- Designed and modified a couple of web pages using HTML, CSS, and JavaScript.
- Created landing pages to support campaigns and advertisements.
- Integrated changes to clients' websites to improve performance.

EDUCATION

Full Stack Software Development — Remote
Microverse — *February 2020 - May 2021*

Diploma, Web Design & Development — Lagos, Nigeria
